(203) 928-8640

Research Interests

Compilers, type systems, formal verification, metaprogramming, symbolic natural language processing.

Education

- Princeton University, Princeton, NJ.
 - Ph.D., Computer Science. September 2018 (ongoing, expected January 2024)
 Thesis: Foreign Function Verification Through Metaprogramming. Adviser: Andrew W. Appel.
 - M.A., Computer Science. March 2023
- Wesleyan University, Middletown, CT.
 - M.A., Computer Science. September 2017 May 2018
 Thesis: Edit-Time Tactics in Idris. Adviser: Daniel R. Licata.
 - B.A., Computer Science (with honors) and Mathematics. September 2013 May 2017

Work and Research Experience

- Applied Scientist Intern, Amazon Web Services, New York, NY. (May August 2022) Worked with Ankush Das on lightweight verification of communication protocols in distributed systems, for a randomized testing tool in Rust.
- Preceptor, Princeton University (September 2019 December 2022)
 Graded assignments, led precepts (recitations), held office hours for the following courses:
 COS 326 Functional Programming. (Fall 2019, Fall 2020 as head preceptor, Fall 2022)
- Software Engineering Intern, Awake Security, Sunnyvale, CA. (July September 2018) Worked with Jeff Polakow, contributed to the design of a functional programming language with row polymorphism for network queries and its implementation in Haskell.
- Student Forum Leader, Wesleyan University (Fall 2015, Spring 2018)

 Designed and taught a course on Haskell for credit, under the supervision of Prof. James Lipton.
- Research in the Sciences Fellow, Wesleyan University (May August 2015, May August 2016) Formalized the correctness and termination proofs of a regular expression matching algorithm using continuation passing style, in Agda. Formalized the compilation of the modal logic based functional language, in Agda. Under the supervision of Prof. Daniel R. Licata.
- Course Assistant, Wesleyan University (September 2014 May 2018)
 Graded assignments, led tutor sessions, and occasionally gave lectures for the following courses:
 - COMP 115 How to Design Programs. (Fall 2017, Spring 2018)
 - COMP 212 Computer Science II. (Fall 2014, Spring 2015)
 - COMP 321 Design of Programming Languages. (Fall 2015, Fall 2016, Fall 2017 (1 lecture))
 - COMP 360-01 Computer-Checked Programs and Proofs (Spring 2016)
 - COMP 360-02 Automated Theorem Proving (Spring 2016 (4 lectures))
- **Programming Specialist**, Instructional Media Services, Wesleyan University (September 2013 May 2015) Developed a calendar for staffing campus events with AV technicians.

¹Legal name: Cumhur Korkut.

²I am a U.S. permanent resident, therefore I am authorized to work in the U.S. and will not need sponsorship in the future.

Skills

- Functional programming (Haskell, Standard ML, OCaml, etc.)
- Web development (JavaScript / TypeScript, HTML, CSS etc.)
- Interactive theorem proving (Coq, Agda, Idris etc.)
- Other: Rust, C, Python, Prolog, LATEX.

Publications and Academic Writing

- A Proof Tree Builder for Sequent Calculus and Hoare Logic, International Workshop on Theorem Proving Components for Educational Software. Haifa, Israel. (remote) (August 11th, 2022)
- Direct Reflection for Free!, International Conference on Functional Programming (Student Research Competition, Graduate Category, 3rd place), Berlin, Germany (August 20th, 2019)
- Commanding Emacs from Coq, Scheme Workshop, Berlin, Germany (August 18th, 2019)
- Morphology and Lexicon-based Machine Translation of Ottoman Turkish to Modern Turkish. Self-published, 2019.
- Direct Reflection for Free!, New York Seminar of Programming Languages and Software Engineering, CUNY Hunter College (February 25th, 2019)
- Extensible Type-Directed Editing, joint work with David Thrane Christiansen. Type-Driven Development Workshop. (September 27th, 2018)
- Edit-Time Tactics in Idris. Master's thesis, 2018.
- Thinking Outside the □: Verified Compilation of ML5 to JavaScript. Undergraduate thesis, 2018.
- Intro to Interactive Theorem Proving, Graduate Student Series, Wesleyan University. (October 5th, 2017)
- Intrinsic Verification of a Regular Expression Matcher. joint work with Maksim Trifunovski and Daniel R. Licata. Self-published, 2016.

Talks

- Foreign Function Verification Between Coq and C Through Metaprogramming, Harvard Programming Languages Seminar. Boston, MA. (March 23rd, 2023)
- Ergonomics and Verification of a Foreign Function Interface between Coq and C, general exam talk at Princeton University (May 14th, 2020)
- Direct Reflection for Free!, International Conference on Functional Programming (Student Research Competition, Graduate Category, 3rd place), Berlin, Germany (August 20th, 2019)
- Commanding Emacs from Coq, Scheme Workshop, Berlin, Germany (August 18th, 2019)
- Direct Reflection for Free!, New York Seminar of Programming Languages and Software Engineering, CUNY Hunter College (February 25th, 2019)
- Intro to Interactive Theorem Proving, Graduate Student Series in Mathematics, Wesleyan University. (October 5th, 2017)

Service

- Object-Oriented Programming, Systems, Languages & Applications (OOPSLA) conference, Artifact Evaluation Committee, 2024.
- International Conference on Functional Programming (ICFP), Artifact Evaluation Committee, 2023.
- International Conference on Verification, Model Checking, and Abstract Interpretation, (VMCAI) Artifact Evaluation Committee, 2023, 2024.
